

**DISTRETTO AEROSPAZIALE
PIEMONTE**

ABOUT US

The Piedmont Aerospace District (DAP) is a no-profit association established in 2019 to ensure continuity of the previous Committee.

Since 2005, the District involved all relevant stakeholders with the aim to enhance the competitiveness of Piedmont's aerospace industry, guaranteeing coordination and long-term vision for public and private investment in technological innovation.

The District was one of the founders of the National Aerospace Technology Cluster (CTNA), which federates Italy's leading aerospace hubs and brings together all the key players in the national aerospace system.

The DAP is an integrated system of companies, universities and research centers with technological capabilities and cutting-edge scientific skills. Public entities and trade associations are also members to ensure effective coordination of district support and promotion policies.

OUR MISSION

Our mission is to support and expand the excellence of the Piedmont system by:

- **Providing** a united and identifiable collective identity
- **Being** the interface with institutions and third parties
- **Sharing technological scenarios and stimulate the aggregation** and development of integrated projects
- **Fostering innovation and promoting** support for research programs, especially towards SMEs

AREAS OF ACTION

AEROSPACES SUPPLY CHAIN

- **Increase value across the supply chain** (Cluster, Partnership, Tier up)
- **Facilitate the entry** of other companies in the sector
- **Support and stimulate** the creation of new businesses

INTERNATIONALIZATION

- **Increase** networking capacity
- **Create partnerships** with European clusters
- **Boost SMEs** internalization

INNOVATION

- **Define** technological roadmaps
- **Share challenges** and opportunities related to aerospace sector
- **Create synergy** between research system and companies
- **Promote** integrated R&D projects

TRAINING

- **Support training** activities and continuous learning
- **Promote diversity** and inclusion (STEM, WIA)
- **Identify** enterprises needs

FINANCING AND COMMUNICATION

- **Identify and promote** funding sources and financial instruments
- **Promote** collective identity

NETWORKING

Thanks to its Associates, **DAP** is an active member of many networks and clusters both at **National and European** level:

- NATIONAL AEROSPACE CLUSTER TECHNOLOGY – (CTNA)
- AEROSPACE AND DEFENCE INDUSTRIES ASSOCIATION OF EUROPE - (ASD)
- ADVISORY COUNCIL FOR AVIATION RESEARCH AND INNOVATION IN EUROPE (ACARE)
- CLEAN SKY
- SESAR
- ASI
- ACARE Italia
- AIAD
- SPIn-IT

ABOUT AEROSPACE SECTOR IN PIEDMONT

In Piedmont, the aerospace sector is one of the most productive and scientific excellences and it can boast a complete line of skills and qualifications, high-level manufacturing, processes and service companies.

NUMBERS

+ 280 SMEs
14.800 employees
3.9 billion € turnover

17% of national exports

26% of export to USA

22% of export to Germany

KNOW-HOW

- Aerostructure final meeting
- On board avionics - Propulsion systems - Airframe structures & components
- Electronic & electrical components & parts - Propulsion engine components - Interiors
- Automatic control & data processing - Engine accessories - Environmental control systems
- UAV, UAS, OPV - Space systems - Commercial satellites - Human spaceflight & Exploration - Space components - MRO
- Flight controls actuation – landing gear systems

OUR MEMBERS

So far, the Association gathered **53 members**: Public Authorities, Universities and Research Centers, Trade Associations, and above all many enterprises, both international key players and local businesses.
